frame: 9.5 kg

accessories: 2 kg

bags (packaging): 0.2 kg

FULL TRANSPORT BAGS

DIMENSIONS (VOLUME)

canvas + frame: 1 pcs, ø 40 × 80 cm (0.1 m³)

accessories: 1 pcs, ø 20 × 120 cm (0.037 m³)

TOTAL AREA

6.6 + 3.3 m²

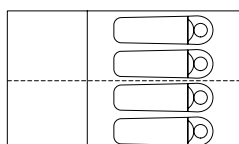

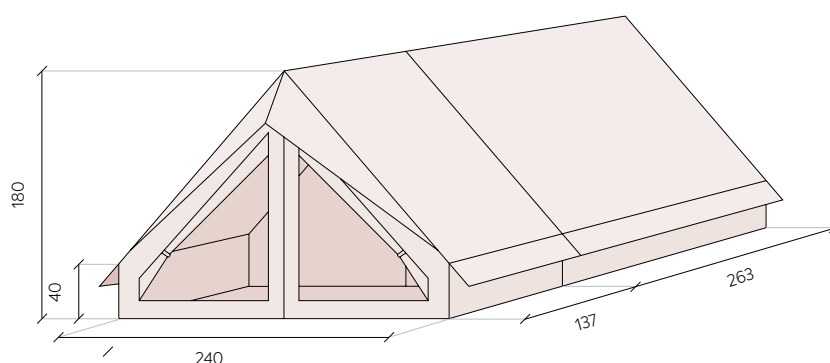

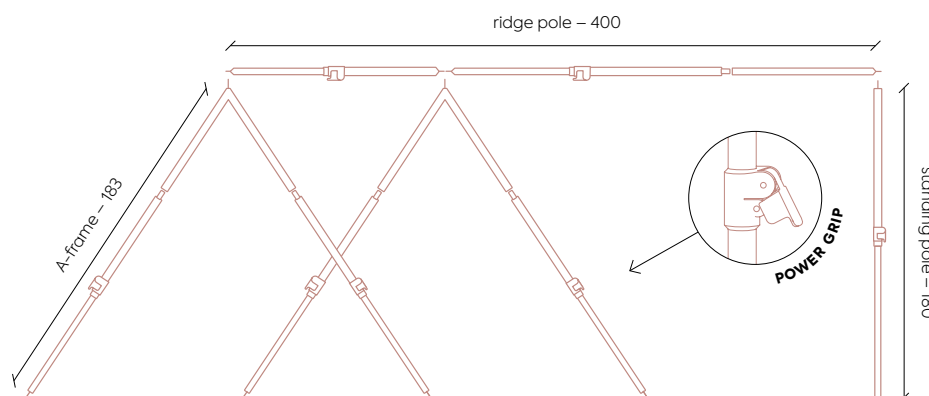

TOTAL WEIGHT

23.5 kg

ACCOMMODATION FOR

4 persons

COLOUR CHART

tent characteristics and usage

- A product with tradition
- Selection of quality input materials that provide a favourable climate in the room
- 5-year warranty
- Slovenian product
- 100% sustainable product

Traditional scout canvas tent **COMFORT** is distinguished by a modern design. It has been developed at the request and in accordance with the needs and proposals of scouts, elders of Slovenian scout families, and the *Scout Association of Slovenia*.

The frame is shifted along the sides, resulting in a larger and more useful floor plan. It offers plenty of storage space and has a built-in durable PE bottom in the living area of the tent. Ventilation openings on the sides and windows at the back of the tent allow for brightness and airiness of the interior. **The canopy extends the usable floor plan** by 137 cm in length (3.29 m²). This provides extra space in front of the entrance, protected from the weather (sun, rain, etc.). It further helps to cool the interior of the tent since the front door can be completely open, and yet the effects of the sun do not reach the inside. The canvas is made of TenCate cotton fabric with excellent properties of ventilation and humidity regulation. It ensures a pleasant climate in the tent and is resistant to all weather conditions.

TENT MAINTENANCE AND CLEANING

Brush the canvas parts and, if necessary, wash them with a jet of water. **Use only a softer brush.** Spread out the tent and let it dry. Wash the frame and let it dry. Canvas parts, frame parts, and accessories should be packed and stored exclusively completely dry.

Machine washing, dry-cleaning, bleaching, tumble drying or ironing of canvases is not allowed. Tears and other damage to the outer canvas should be repaired by the manufacturer.
