COLOUR CHART

tent characteristics and usage

- A product with tradition
- Selection of quality input materials that provide a favourable climate in the room
- 5-year warranty
- Slovenian product
- 100% sustainable product
- Quick to set up

Traditional scout canvas tent **FREEDOM** is distinguished by a modern design. It has been developed at the request and in accordance with the needs and proposals of scouts, elders of Slovenian scout families, and the *Scout Association of Slovenia*.

The tent is **great for a children's play in the garden**. Raised sides of the tent allow for better utilisation, as they allow sitting next to the sides. Large windows on the doors and sides allow for brightness and good airiness of the interior. The canvas is made of TenCate cotton fabric with excellent properties of ventilation and humidity regulation. It ensures a pleasant climate in the tent and is resistant to all weather conditions. **Setting up the tent is easy and fast.**

TENT MAINTENANCE AND CLEANING

Brush the canvas parts and, if necessary, wash them with a jet of water. **Use only a softer brush.** Spread out the tent and let it dry. Wash the frame and let it dry. Canvas parts, frame parts, and accessories should be packed and stored exclusively completely dry.

Machine washing, dry-cleaning, bleaching, tumble drying or ironing of canvases is not allowed. Tears and other damage to the outer canvas should be repaired by the manufacturer.
