

BASE FABRIC

50/50 % PES/TenCate cotton
around 420 g/m²
water-repellent impregnated (450 mm HH)
anti-rot and anti-mold treated

TWO-LAYER WINDOW

mesh: 100% PES, plasticised, resistant
from -30 °C to +70 °C
canvas lid: base fabric

CLOSING SYSTEM

lacing (ribbons and rings)

BOTTOM

the tent is bottomless*

FRAME

the tent is frameless
the wooden frame structure
is not a part of the tent*

DIMENSIONS

width: 240 cm
length: 280 cm
ridge height: 190 cm
side height: 61 cm

WEIGHT

canvas: 12 kg

LIVING AREA

6.7 m²

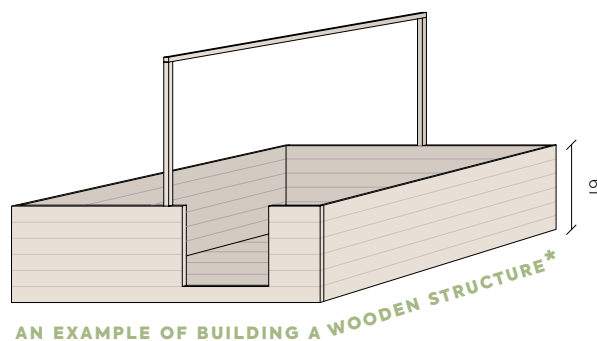

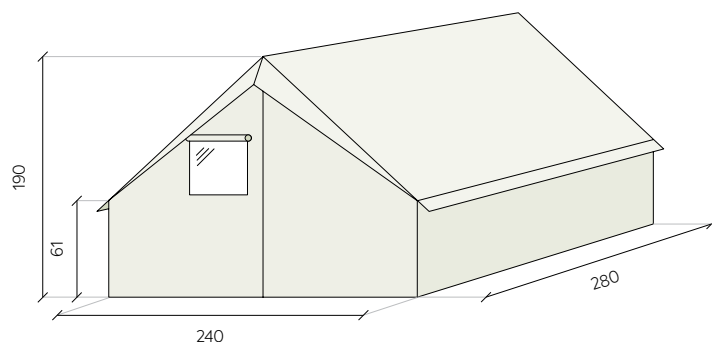

TOTAL WEIGHT

12 kg

ACCOMMODATION FOR

2 persons

COLOUR CHART

tent characteristics and usage

- A product with tradition
- Selection of quality input materials that provide a favourable climate in the room
- 5-year warranty
- Slovenian product
- 100% sustainable product

The traditional scout canvas tent **GLAMP** is distinguished by a modern design.

Custom canvas production is also a unique opportunity for glamping tents where we adapt to your wishes.

* **We present an example of good practice where the trough and the ridge are made of wood.** A canvas part is hung on an upright wooden structure. The tent is thus completely protected from external influences (sun, rain, etc.) and offers increased comfort in the interior. The canvas is made of TenCate cotton fabric with excellent properties of ventilation and humidity regulation. It ensures a pleasant climate in the tent and is resistant to all weather conditions.

TENT MAINTENANCE AND CLEANING

Brush the canvas parts and, if necessary, wash them with a jet of water. **Use only a softer brush.** Spread out the tent and let it dry. Wash the frame and let it dry. Canvas parts, frame parts, and accessories should be packed and stored exclusively completely dry.

Machine washing, dry-cleaning, bleaching, tumble drying or ironing of canvases is not allowed. Tears and other damage to the outer canvas should be repaired by the manufacturer.
